

A SPECIAL INVITATION TO OUR PARENT BODY

Consensus Design Workshop & Architecture Lecture Series

with Oldrich Hozman

Anthroposophical Architect from the Czech Republic

Oldrich Hozman was born in Prague and graduated from the Academy of Applied Arts in Architecture and Design. His designs are based in ecological and organic architecture. He supports a holistic view on the creation of a healthy environment and architecture to support the highest functioning of human beings.

Nevada Sage Waldorf School and The Site Planning & Development Committee would like to invite our parent body to participate in the upcoming **Consensus Design Workshop and Architecture Lecture Series with Oldrich Hozman** who is an Anthroposophical Architect from the Czech Republic.

Beginning May 28 through June 20th **our parent body will have a special opportunity to engage in the creative process of designing our new school campus.** You will learn about the uses of organic shapes and materials in Waldorf architecture and how it will be applied to the designing of our classrooms, buildings and play yards. Participate in the hands-on activities using clay modeling to bring forth organic shapes and soft forms of the buildings.

We encourage all parents to participate in this exciting phase of building our dream school together. Please review the workshop schedule and lecture series dates below and come to one or come to all...feel free to join in for a portion of the time, not necessary to stay all day. Your involvement is greatly appreciated.

reservations are required

Choose which workshop dates you would like to attend and reserve your spot today. Space is limited to 20 participants a day. **Parents of NSWS only.**
